

Microsoft Teams: Challenge

- Motivate students with fun, interactive challenges among your team
- Build teamwork

1

Motivate the students in your teams to see which team can learn the most. You can start and stop the challenge whenever you like.

Make sure to select your school

Go to the leaderboards

2

You can challenge all of your teams to answer the most questions correctly for quizzes in your team.

The screenshot shows the 'Leaderboards' page in the JogNog interface. It includes a navigation bar with 'Conversations', 'Files', 'Class Notebook', 'Assignments', and 'JogNog dev'. The page title is 'General ...' and it is marked as 'Private'. There are three callout boxes with pink borders and arrows pointing to specific elements:

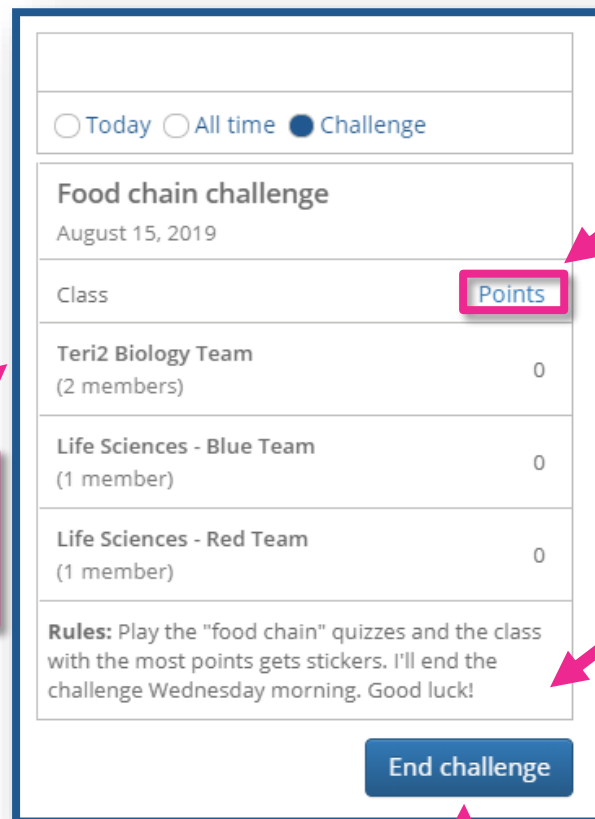

- Select the Challenge leaderboard:** Points to the 'Challenge' radio button in the 'Leaderboards' section.
- Name your challenge:** Points to the 'Name of your challenge' text input field.
- Tell students what quizzes to complete, when the challenge ends and what their reward might be:** Points to the 'Rules and rewards' text area.

Below the form is a 'Start challenge' button. To the right, there is a 'Home' button and a 'Points' section with a 'Challenge' header. At the bottom, a table shows the results of a previous challenge:

Class	Points
Tina Teacher - Arithmetic (3 members)	98
Tina Teacher - Biology	90

The results of previous challenges are shown on the same page

2 All your teams participate when you start the challenge!

Class	Points
Teri2 Biology Team (2 members)	0
Life Sciences - Blue Team (1 member)	0
Life Sciences - Red Team (1 member)	0

Rules: Play the "food chain" quizzes and the class with the most points gets stickers. I'll end the challenge Wednesday morning. Good luck!

End challenge

Teams get points when their students correctly answer questions. The more the students practice the more they help their team.

All your teams that have JogNog are on the leaderboard.

Students see the rules that you set for the challenge.

You can end your challenge whenever you like.

Congratulations!

You can now motivate and engage your students with a fun and interactive class to class challenge. See which class can learn and correctly answer the most questions!
